Coley is an award-winning workforce performance solutions company delivering innovative solutions to Corporate and Government organizations. We help our clients design and implement successful mentoring and coaching programs that improve employee retention, engagement, performance and succession planning.

## Professional Services

Coley's workforce development experts are available to assist throughout the entire mentoring lifecycle. Our program expertise is built around industry Best Practices. Whether you need help with designing and implementing a mentoring program; maximizing participation; or assessing the effectiveness of your current program, our experts can help.

Our Mentoring services are aligned with the United States Office of Personnel Management: Best Practices for Mentoring. Our services are designed to provide you with the information, tools and best practices to: 1) build strong mentoring partnerships, 2) address common

challenges, 3) learn through others, 4) enhance job performance, and 5) quantify your return on investment.

Implementing a mentoring program gives employees motivation to engage, grow, and quickly become productive members of your team.

**Give us a call today to find out how we can help you quickly implement a mentoring program that accelerates your employees' learning and increases employee engagement and retention.**
